Additional Recommended Courses:

NRT 1221 – Fire Training and Mechanical Skills 1 (1 cr) and NRT 1222 – Fire Training and Mechanical Skills 2 (1 cr)

Program Description

The Park Ranger Law Enforcement Academy (PRLEA) is a certificate program designed for students who have already earned an associate's or bachelor's degree. Graduates of Vermilion's Wildland/Wildlife Law Enforcement AAS and Criminal Justice-Police Science AS degree programs may apply to enroll in this program the fall semester following graduation. Students transferring to Vermilion who have earned a two-year or four-year degree at an accredited college or university are also eligible to apply.

This hands-on, skills-based program prepares the prospective law enforcement officer to perform the duties required by law enforcement/peace officer positions at both state and federal levels. Structured in an academy style, this 19-credit certificate is scheduled once each year, fall semester.

Vermilion's academy is one of six specifically designed for the National Park Service (NPS) to provide the basic training required to prepare students for careers as NPS law enforcement rangers. Graduates successfully passing all PRLEA exams are eligible for a law enforcement commission and can apply for a seasonal position with the NPS.

Additionally, Vermilion Community College is certified by the MN POST Board to provide the professional peace officer education required for licensure as a police officer in the state of Minnesota. Graduates of the program meeting state minimum qualifications will be eligible to take the MN POST Board peace officers licensing exam.

Occupational Titles

Seasonal Park Ranger (Type II Law Enforcement Commission) with the National Park Service, United States Forest Service, United States Fish & Wildlife Service, Bureau of Land Management; Police Officer, Minnesota State Patrol, Minnesota DNR Conservation Officer, and Deputy Sheriff. Note that additional experience may be required by some positions.

Program Learning Outcomes

Graduates of this program:

1. Will understand the principles of radar operation and will set up, calibrate, and operate radar units.
2. Will have an understanding of a well written police report and demonstrate a report writing proficiency as well as conform to all state and federal guidelines regarding official reports.
